Facials

Facials are the ultimate pampering and purifying experience. All clients having their first facial treatments will be scheduled with a **Dermaprint Skin Analysis** which is a step by step system which allows me to accurately recommend the correct homecare products, identify skin conditions and recommend the correct treatments program for you.

Express Facial

The skin is cleansed, toned, exfoliated and a mask is then applied to refine the pores. The products used feature high concentrations of active ingredients, including plant extracts, natural minerals and naturally sourced vitamins & proteins specially chosen to deliver superior results. Recommended for all skin types.

30 mins £25

Luxury Facial

Your skin will be thoroughly cleansed and toned to remove excess oil and surface dirt. An exfoliator will be applied to aid in the removal of dead cells, stimulate new cell regeneration and brighten skin tone, followed by specialized extraction techniques to allow for ease in removal of blackheads and whiteheads which promote a clear complexion. A facial massage will assist in oxygenating the tissue, increasing muscle tone and enhancing well-being. A mask will then be applied to complete the final cleansing and build the moisture level deep within the tissue. A gel is then applied to the skin which increases elasticity, refines texture and provides a more radiant appearance. Finally, a moisturiser balances the oil and water in your skin by rehydrating outer cells and retarding the evaporation of existing moisture in the skin.

60 mins £35

Natural Lift Facial Massage

The facial massage uses massage techniques which act as a natural facelift so there's no need for surgery! Facial massage is a very popular beauty treatment to slow down the aging process and achieve younger looking and healthier skin.

Corrective Facial Treatments

A selection of “results orientated” facial treatments each designed to address and correct your skin concerns. Treatments may be taken individually or as a course of six for maximum results. I use an effective combination of plant extracts, marine extracts and cosmeceutical ingredients for rapid, dramatic results.

All Treatments 60 mins £45

Multi Vitamin C Antioxidant

To address: Dehydration, elasticity, rough texture, fine lines & wrinkles.

A deep exfoliation of dead skin cells reveals a softer skin texture and will stimulate the production of new healthy skin cells. A deep hydration of the cell layers increases elasticity, reducing fine lines & wrinkles. Antioxidant loading prevents the ageing effects of free radicals.

Deep Pore Cleansing

To address: Follicular congestion, comedones, milia & pustules.

There is nothing like blemish-free skin. Whether you're constantly combating blackheads or having problems with breakouts, this deep pore cleansing can be the solution. Specialized techniques using emulsifiers, exfoliators and hydrators will soften follicular impactions allowing for ease in removal. Your skin will feel soft, smooth and be on its way to becoming blemish-free.

Tissue Renewal

To address: Fine lines & wrinkles, capillary distension, rough texture, dehydration and asphyxiated skin.

This treatment is especially formulated to treat common concerns such as fine lines & wrinkles, capillary distention, dehydration and rough texture. This anti-aging facial will smooth and hydrate the skin's surface, increasing cell turnover rate and improving your skin's elasticity. Your skin will be left healthy and loaded with antioxidants to fight off the age-accelerating effects of free radicals.

Moisture Boost

To address: Dehydration & excessive dryness, follicular congestion, rough texture, fine lines & wrinkles and sensitised skin conditions.

A skin care treatment especially formulated for thirsty, rough-textured, sensitive and aging skins. A special gauze-like mask drenched in warm paraffin wax is applied to your face. Essential vitamins and humectants penetrate surface skin layers, boosting your skin's ability to retard moisture loss. This treatment will hydrate the deeper cell layers to increase elasticity, minimize fine lines and encourage a more even exfoliation.

Exotic Facial Peels

An exotic selection of eight different skin peels, all designed to address multiple skin conditions and concerns. These peels provide dramatic results without the redness and irritation caused by some other deeper peels. I also offer a specific peel designed for male clients - "The Rapid Power Peel". The Exotic skin facial peels offer various strengths of exfoliating treatments from very mild to strong, depending on your skin type and sensitivity factor. I will recommend the treatment or treatment series that is specifically designed for your skin type and skin conditions.
